Fifa 22 Features Key:

- **Realistic Player Performance & Movement** Using the same pinnacle, individual muscle mass and ground reaction forces as the real athletes, up to 22 players can collide and simultaneously perform any number of actions and motions. This includes dribbling, from a low direct strike into a spectacular chip over the keeper, a ball-handling with the outside of the foot, touches or slips, backward or forward runs. During free kicks or crosses the direction of the movement will be described by either of two animations in order to perform acrobatic crosses or bouncing crosses. The active ball and realistic physics bring authentic, breath-taking realism to your gameplay experience.
- **Breakthrough Improvements** Long-awaited updates to the FIFA Player Career technology, including the ability to take on loan players. You can now also follow clubs on their international trips. The 'Transfer Zone' has been revamped, with more details on transfer proceedings, and squad building and team management are improved.
- **Match Day Improvements** We've improved the presentation of your tactics, providing a greater visual and game flow with a better visualization of on-field actions and better-defined formations.
- **Venues and Kits** The squad editor now includes stadiums and kits to team up with your players. Teams can now be customized with stadiums and kits. Stadiums can be sold for customization, with kits designed using a real-life 3D designer and viewable through the kits. If you are a Business customer, you can purchase a license with discounts granted to the number of users and it will include commercial licences applicable to your organization and others in your organization. Sign up for a free trial now: I have the regular version and I have taken advantage of many of the extras and have invested over \$500 in the game. It is worth your money in my opinion, although the demo's are a perfect way to see how they work in a

live setting. They're robust, seamless and if you want to, you can just click through different areas (play stadiums, play field, view teams). At times, the UI doesn't feel as polished as the regular version, but it works and I don't think it matters as far

Available in 2 modes - Standard or Squad Battles The Standard mode begins when you boot up the game, while the Squad Battles mode is a way of playing FUT matches against your friends, remotely or in-person, by linking your game accounts. If you are playing offline, you can invite your friends to link their accounts and be matched with them online. CASE STUDY FIFA 22 will feature an in-depth Case Study for its Career mode that analyzes your performance on the pitch and reveals how you're doing with your club. Every year you'll receive a new Case Study that includes a breakdown of your Goals, Assists, Chances created, passes, crosses, and shots. It also looks at the number of defensive mistakes and other game-related statistics, such as giveaways, defensive and offensive fouls, and game state. PITCH DEMO You'll be able to play a pre-season Pitch Demo of FIFA 22 in the game's pitch builder. With a modernized Pitch Builder, you'll have the ability to customize all aspects of the pitch in order to create your own dream setting, from the look of the grass to the properties of the pitch surface. CLIMATE CONTROL FIFA 22 will feature a true Global Game Engine (GGE), which will enable the game to run smoother and faster when played on the widest spectrum of devices and environments, but also will allow players to play matches in the exact country and weather that they want. The improvements in the GGE will allow FIFA to calculate and present global weather with a resolution that will exceed the highest standards of sports, while also allowing the inclusion of biomes to the game world, providing players with the most realistic representation of the world's environment. What's new:

- **PES 2018 on PS4/XBOX:** Enhanced gameplay features and additional content from PES 2017. Thanks to the additional features from 2 years on PlayStation and Xbox, PES 2018 is ready for any challenge from the very first kick-off all the way to the last goal scored.
- **New Selection screen:** FIFA 22 adds a brand new selection screen to your gameplay experiences. The from-the-front screen allows you to monitor the latest transfer market situations, assess the strength of each squad quickly, and choose your next action in FIFA 22.
- **New Main menu:** The FIFA 22 main menu now depicts the greatest, most realistic pitch and FUT now focuses more on gameplay in the player's hands, making the match field visible in the introductory user interface. Additional elements have been added as well, such as live camera angles where available.
- **FIFA Ultimate Team Online:** Now you can compete across online seasons as your favourite clubs on FIFA Ultimate Team Online (FUTOU). Exclude dedicated team competitions in the new FUTOU structure that's focused on player progression, social interaction and achievement in-game.

New to FIFA 22:

- **New starters:** Each national association has introduced a brand new goalkeeper and a brand new defender to FIFA 22. Every national association also has its own new legends and personalities.
- **New football specific stadiums across the world:** Including a brand new stadium set with an electric paradise pitch in the amazing Spanish town of Pamplona. The new stadium will be included in FIFA 19 and FIFA 20 in a future update.
- **FIFA 19 new coverage graphics:** The new Football Lives cover covers the game table in-front of the main (and the future screens). Is there more to come here?!
