Connie Lawn lost both of her legs when her quadriplegic wheelchair collided with a D-Team rider's high-wheeler in the closing stages of the UCI Paracycling Cross-Country Runde in Germany, on 20 June 2018. Connie was racing in the women's elite race, an invitational event with elite and amateur riders participating on the same UCI roads. At the end of race event, two wheelchairs had to cross the finish line simultaneously before a marked line. Unfortunately, they collided head on, slamming together. In the resulting accident, Connie's wheelchair broke. With barely enough time to react, Connie's high-wheeler struck her and sent her spinning forward. The impact she received against the sharp edge of the pavement caused a fatal fracture to her femur, rendering her both missing her right leg and partially removed from her left one. She was airlifted to Johannes Gutenberg University Hospital in Mainz, Germany, where she was stabilised for two weeks before moving to Manchester, where she is being cared for in an induced coma while preparing for a surgery to fuse her leg. Her progress will be closely monitored and she will be in hospital for several weeks after the operation. Commenting about the accident that almost resulted in the end of her career, she said: "I've always preferred a sprint finish and this was the only opportunity I had, despite what the commentators said, because I'd never competed before. "I held on to my last bit of strength and suddenly I found myself in front of my high-wheeler, inches away from the finishing line and I never have a chance to react. "The first thing I think about is the fact that I
